

As a New Jersey resident I am very happy to have the law as stringent as it is... the purpose of the "Do Not Call" list is to STOP telemarketers and it is working PERFECTLY.

I do not wish to be contacted at home by people wishing to sell me their products nor do I want to partake in surveys. If I want to buy something I go to the store... and it is very rare that I want to answer a questionnaire.

I enjoy being left "untelemarketed"!

Thank you!
